NARVIK

The region of contrast

Welcome to Narvik - A peninsula surrounded by fjords and mountains. Narvik is so much more than just beautiful nature! It is the home of the Ofoten railway, the navvies, the famous bears Salt & Pepper and its unique war history. It was the first industrial town in Northern Norway and was given town status in 1902 as the construction of the Ofoten Railway was completed. A town centre was formed and its unique culture was, and still is, influenced by Swedish navvies, British engineers and sailors from across the world. Located 45 km from the Swedish border you can visit two countries in one day.

ATTRACTIONS/EXCURSIONS

Polar Park

The world's northernmost wildlife park and one of Northern Norway's most popular tourist attractions. With its 114 acres of natural habitat it houses Arctic animals such as wolves, brown bear, lynx, wolverine, moose, reindeer, musk oxen and fox. Enjoy a guided tour of the park.

Why not try a different kind of visit?

- Wolf Camp

We give you the unique opportunity to meet the wolves at Polar Park inside the enclosure! Meet this mythical animal, and discover the actual truth about wolves.

- Howl night (winter)

Join us and get a unique and fantastic experience after closing time. It is dark, with crispy snow underfoot, and you are calling the wolves and they reply. This is the perfect setting for the Northern Lights to magically light up the sky.

- Wolf Lodge

How would you like to stay overnight in the Wolf Lodge at Polar Park. Built in the middle of a large wolf enclosure, this is a truly unique experience.

The Ofoten Railway

The Ofoten Railway extends for 42 km from Narvik to the Swedish border and winds its way through steep, rugged, mountainous terrain north of the Arctic Circle. The journey is a tourist attraction in itself. The line was once described as the 8th Wonder of the World and was the northernmost, coldest and harshest railway construction project the world had ever seen.

Ofoten Railway & Navy trek

In a rich and wild nature setting the Navy Trail winds its way down from the mountain to the fjord. The framework for this picturesque walk is nature itself with vibrant colours, brilliant light and unique sounds. The Navy Trail has been branded a cultural Heritage trail.

Narvikfjellet - Cable Car

Take the cable car to one of the most famous viewpoints in Northern Norway - the mountain restaurant 656 metres above sea level. Enjoy the spectacular view, the Midnight Sun or the Northern Lights. Several walking tours can be organised from here. Sled rides down the mountain in the winter. Climbing Park - fun for both children and adults. Ski slopes, children's slopes, equipment hire.

Aurora Hunting

The Aurora Borealis, also called the Northern Lights, is only visible in the northern hemisphere in the period September to April. However, the best time is from October till February. We can offer several excursions where we go looking for this incredible phenomenon, hopefully leaving you with memories of a lifetime.

War History & Memorial Museum

Narvik's dramatic history from World War II is told through pictures, displays and interactive animations

at the brand new war museum. For two months a bitter battle for Narvik took place, and it was here that the first major victory by the Allies during World War II was achieved.

Narvik Mountain Lodge

Stunning lodge located half way up the Fagernes Mountain. Combine this with activities such as a walk on snow-shoes, hiking, dining, Northern Lights excursion or just enjoying the view from the luxurious balcony with a warm drink in hand. Fun and games in the snow for those feeling playful. In the summer why not have a BBQ whilst watching the sun that never sets.

Njalasouka Adventures

A sleigh ride to the Njalasouka lavvu is the start of an exciting trip that brings you high up in the mountains with fantastic mountain scenery that creates a perfect backdrop to your "Sami" day out. Traditional Sami food combined with storytelling, activities and the opportunity to be a reindeer herder for a day.

Dog sledding

Glide across the blanket of snow to the sound of the runners and the panting of the dogs.

Snowmobile excursions

Go on an adventure and experience the wild mountains on one of our environmentally friendly snowmobiles.

Gratangen

- Norwegian Coastal History in a nutshell

Norwegian coastal history goes back thousands of years, and in the picturesque village of Gratangen you can learn how this has evolved. Visit the boat museum which hosts one of northern Europe's largest collections of traditional Nordland boats (Fembøring - 10-oared boats). This is how fishing used to be.

Hiking trek to Fornesvannet (Tøttatoppen)

Tøttatoppen is one of Narvik's most famous peaks, and in order to be considered a true Narviking you must have climbed this mountain. It is located to the east of the town centre and stretches 1234 metres above sea level.

Panoramic Skjomen (summer only)

Skjomen is known for its scenic and volcanic terrain with high, steep mountains, and clear water. Skjomtind, Reintind, and Klubbviktind are three of the many staggering mountains surrounding the fjord. The Frostisen glacier, which is one of the larger plateau glaciers in Norway, is located just west of the fjord.
