

Annex 3 – Anchoring Report form

Ship's name: _____

IMO no.: _____

| | | | |
|----------|---|--|-----------|
| A | The anchor coordinates/position of the anchor | The time it was anchored | |
| | | | |
| B | The number of shackles of anchor chain in the water | | |
| | | | |
| C | The draught forward | aft | amidships |
| | | | |
| D | The deadweight when anchoring | Deadweight when loaded to the summer load line | |
| | | | |
| E | The amount of ballast water on board | the maximum volume of ballast water that the ship can carry on board | |
| | | | |

The initial anchoring report is submitted through completing the Anchoring report form (annex 6) and handing it over to the service boat (operated by Narvik Port Authority), which subsequent to the ship's anchoring picks up the pilot.

If not the preferred method of reporting is possible, the content of the report could be submitted using the following methods:
